in astonishing and unflinching detail a noted science journalist explains how earth's climate will be impacted with every degree of increase in global warming and what can be done about it now

this book must not be ignored it really is our final warning mark lynas delivers a vital account of the future of our earth and our civilisation if current rates of global warming persist and it's only looking worse we are living in a climate emergency but how much worse could it get will civilisation collapse are we already past the point of no return what kind of future can our children expect

rigorously cataloguing the very latest climate science mark lynas explores the course we have set for earth over the next century and beyond degree by terrifying degree he charts the likely consequences of global heating and the ensuing climate catastrophe at one degree the world we are already living in vast wildfires scorch california and australia while monster hurricanes devastate coastal cities at two degrees the arctic ice cap melts away and coral reefs disappear from the tropics at three the world begins to run out of food threatening millions with starvation at four large areas of the globe are too hot for human habitation erasing entire nations and turning billions into climate refugees at five the planet is warmer than for 55 million years while at six degrees a mass extinction of unparalleled proportions sweeps the planet even raising the threat of the end of all life on earth these escalating consequences can still be avoided but time is running out we must largely stop burning fossil fuels within a decade if we are to save the coral reefs and the arctic if we fail then we risk crossing tipping points that could push global climate chaos out of humanity's control this book must not be ignored it really is our final warning

the sacramental and prophetic traditions of christian spirituality suggests matthew eggemeier possess critical resources for responding to the contemporary social crises of widespread ecological degradation and the innocent suffering of the crucified poor in a sacramental prophetic vision eggemeier maintains that the vital key for cultivating these traditions in the present is to situate these spiritualities in the context of spiritual exercises or ascetical practices that enable christians to live more deeply in the presence of god coram deo and in turn to make this presence visible in a suffering world

the essential resource for middle and high school english language arts teachers to help their students understand and address the urgent issues and challenges facing life on earth today this text features classroom activities written and used by teachers and a website climatechangeela.pbworks.com with additional information and links all royalties from the sale of this book are donated to alliance for climate education acespace.org

an invaluable resource for general readers investigating climate change this book examines the impact of climate change on popular culture and analyzes how writers and directors treat the disasters caused by climate change in their novels and films climate change in popular culture a warming world in the american imagination is the first study that includes analyses of both
